

12/2 While I was outside lopping off the many b
branches of a 60-80 foot double-trunked ~~mon-~~
barkly poplar as high as I could reach from an
8' ladder, Lil was going over her forms to
prepare a set she thought might be useful to
you. Ask if you have any questions. If there
was a pay raise or overtime pay or anything
else that increased your income as indicated
on the income-averaging form, using that pro-
vision may mean \$\$\$\$. If other recent years
are applicable, the form will indicate. There
is no special significance in using Black forms
She used what she had at home so I could get
it off faster, in case you would like her to
either do it or go over it if you do it or in
the event you have it done by Block or another
and would like her to go over it before you
file it.

soon, as soon as the waight gets up to what
an even number of 8s will carry so I wont have

Presume you noticed that the N.O. build-
ing that burned bears the same name as
that of one of JG's backers, Rault. He
was in petroleum and I think other
things. There need not be any connection
and I now of no reason to postulate one.
The absence of sprinklers, from the TV
news, is typical, not unusual, the code
there and almost universally permitting
it.
