6/9/72, LF, Js: The first of two deals between Gervais and the Federal Government was made 5/29/69, the second 11/23/70; the first allegedly with IRS only, the second with DJ. The second deal was allegedly identical with the first in its details, so the only thing I can see in it is extending protection to Gervais, since he was already working for the feds. I can now see other grounds for their seeking vengeance except vis the perjury route, by charging him with the crimes he committed and claiming they got the proof independently. They are crooked enough and I think now angry enough. HM
