

24 March 1972

HW:

Herewith some miscellaneous stuff, including the Russo article in Ramparts which we thought you'd want, and a fun piece on income tax returns we thought Lil might enjoy, particularly the signoff.

We've listened to the Jerry Ray tape and are returning it herewith in case you need it.

At your request, someone in NY named Jerry sent us a Nebel transcript with Lattimer, which is fine, Glad to have it. He also sent a photocopy of a long thing from the March issue of Earth on the CIA. Was this a mistake on his part, and do you need it? We already have that issue, so if you need it we'll be glad to send it along. When you have an opportunity please thank the NY Jerry for his willingness to help.

This also acknowledges your mailings of March 6, 7, 11, 14, 17 and 20, but unfortunately there's no time to reply. We've just finished a seven-day work week, and after another five days have to do a week on the graveyard shift.

We also have the two cassettes you sent. One we still haven't been able to audit. Both are welcome, and thanks very much.

Also enclosed are a few photocopies from New Orleans, some of which may be of interest. At least they'll bring you up to date as far as we're able.

That's about it for now, and best from us both,

jdw
