

Little before 11 a.m. WTOP radio reported that LATimes reports Colson says he has proof of administration WG cover-up, had documents and is willing to testify. This need be no more than Dean, and he could be running Nixon interference. If so, my earlier hunch could be wrong. This newscast also said that testimony has mentioned Haldeman and Ehrlichman, quoted from today's Star-News, which also says that Mitchell says the WG operation had WH approval. Honest John Strikes Back? Did you note in NYTimes 4/19 that Winzola McClendon is spokeswoman for Martha? If enough of those under him go for each other's jugulars, King Richard's might be better protected. I won't see today's Star. If Post uses LATimes, I'll send.
