

I am staying out of touch with him and his, but Ray has given the lawyers what he promised me long ago, a number. He has provided only part, with an exaggerated deprecation, saying as he did in sending me good stuff that it was worthless. He did not supply the complete number. The last four digits. They are identical with the last four digits of that day of Carlos "arcello's Town & Country Motel. We will be discussing this before you can pass any comment and I have my own opinion (arcello not in on deal). If it provokes any thoughts and if you have time, I'd be interested in it afterward. I would be inclined to believe, assuming authenticity, that it was for a semi-permanent tenant or a moonlighting employee or an employee with whom he could leave a message or have one relayed. Carlos doesn't live there and I don't believe he had his office there. HW 8/29/73
