

Our Chinese rest<sub>a</sub>urateur friend has struck a blow for women's lib. Thought you would like to know. Lil keeps his books. We were there for dinner Friday night. He sat and we chatted for a while. He said he had a special Christmas card for us, made specially in Formosa. Today he hand delivered it to Lil and her office. It was, indeed, a nice card. But we both appreciated even more the way he or his wife addressed it: Mr. and Mrs. Lillian Weisberg. Up the Women!!
