Dear Js, 3/2/7

Well, this Hermes hasn't budged even a millimeter!

But I've been budging a bit too much, clearing what I hope will be a garden spot. Yenking a great growth on honeysuckle down this p.m. I also punched a dead pine branch into my left eye. No blood or anything, but uncomfortable enough now to disturb concentration, so this time for a few explanations.

In the out-or-order envelope numbered 80 there was another rough letter to Jerry and a somewhat forceful one to James. I'm not running around looking for fights. In his own or under the influence of James, Stoner or both, Jerry has pulled some stupid ones, do stupid I think he can't now be used as a witness in the hearing. His criminal record would not have deterred. Because I've been wanting our, more on account of Bud than the Rays, I'm being tough to get them to latch the flapping jaws.

I've begun to open up some new medical stuff in the Archives. Not enough paper to send you what I got today and besides, I think by itself it would not make sense. I got a few thinks when the denial of appeal was reversed, and I think they II be the means of opening up more. They have given me internal correspondence and withheld some, so they can't, legally. And I think my new decision gives me the right to other things they have been withholding. I'm going to DC tomorrow to pick up a sick friend at the airport and I'm meeting with besar on this.

I don't know if you want to take time to read the decision. I think that even if you are not familiar with the law, the favorable part is lucid enough. You don't have to know anything to understand the minority opinion.

If you read the affidavot of the FBI agent and read the footnote in which the court below is directed on remand to let me go into it, I think you'll see what I do, that the majority is giving me as a ticket to gut the FBI and Justice, for this is close to perjury and is total misrepresentation. I'm sending it to Howard in the a.m. in a large 3rd class accumulation. I'm still excited by it.

While Lesar and I were together yesterday we discussed his handling some FOI cases for me now that he is a member of the bar. I'm going to be very careful with the present situation and not rush on anything. But I've got a couple of very good cases. And for nitty-gritty stuff.

L. Patrick Gray was of counsel for the loosers in my suit! as you will see if you read that part.

Sorry about the ribbon. Be getting a new one soon.

There is a tiny item on the federal indictment of the two Hunt non-bastards who are real bastards in today's Bost. If you see a full story, I'd appreciate it. I think this is an outgrowth of my friend Baul's work. "e caught them doing the taping and bugging of him and sued the old man and got an out-of-court settlement.

Latest with Dione is one for the books - or a book. She has applied to a Jewish organization for assistance. They require that the name of a relative be give. So, I'm now her uncle! She called me up to tell me about it last night, just in case someone calls me. She said, she got \$2.75 from Tsavellers' Aid for food yesterday and used that on the call. I don't think she didn't reverse because she anticipated I'd not accept. Some of this can't be for real, but it is entertaining.

I've been told (sh!) that Wolfson would help assassination investigation if the result would point at LBJ.

Wasn't able to follow the newest Black September hostage-taking, but it seems obvious that the assassinations followed immediately upon GL's cheap posturing, that he'd not be blackmailed. Why he had to say anything is not clear to me.

TV has again gone crazy over Indians, news and even a segment of the Today show today, fair treatment too. Seems like nobody knows there is an Indian left or any shame to the past until they get violent. They are doing it smarter than the blacks did. Now everyone knows that we robbed, conned and massacred them, including their women and kids.
