

Once they started up, the Ervin people are like a sausage machine with the hearings! Today I got all first five, in one torn and open envelope. Five includes Kalmbach, 7/17. I'll have more calls for copies than I'll have spares, but I'm sorry I could not save you this \$\$\$, Haven't looked at this yet, but it tells me we are getting to the more interesting exhibits and some of the more exceptional testimony.

Forget main purpose: to let you know what 5 has.

When the hearings came today I checked mine and thought 5 was new. Didn't really look at it until later. Then it seemed very familiar. When I looked at the appendix I knew I have it. It took some looking to find it where I had stacked other work on top of it. So, it is not a new volume as I told you. HW 11/3/73
