

I can't begin to go into it now, but I have finally received some of the stuff that has not seen the light of day, some that was represented as published in Gull and was not, with the highly significant, esp. re Cushman and Ehrlichman (old friends yet!) and Cushman's earlier spooking career, a basis for WH blackmail clear enough and all sorts of other ungood goodies. No time to copy, copy paper not yet here! Just to let you know. Some is Senate Press Gallery copies, stamped not for removal and taken much too literally! I'm deep in trying to overcome the lawyers legal deficiencies in the spectro suit, which is a real mess and a real book now to official suppression in the future. I have not yet read or seen it but apparently I was able to estimate some of it well enough so that Lesar now agrees with the approach I suggested and instead of what we were to get together for, we'll have to to-line this. I've had to lay another complicated chapter aside well started-the Gray/FBI covering up, Lil is in the second day of one of her crippling headaches in which she loses her sense of balance, so I may not be as lucid and informative as I'd hope. In time I'll make an inventory of this suppressed Hunt stuff if you want. However, he was "FE", which in my day meant "Far East". This is to say not Latin America, and that day seems to have coincided with Cushman's own clandestine experiences using one of my favorite haunts, owned by friends of mine, the "adrillon for his cover meetings. He probably at some of my stuff! for they were farm customers!) As I suspected, the Mullen-CIA connection was current and involved more than one member or partner...I still have to go after more, for I have far from all, but more than enough for a sensational expose with just this last batch. I've skimmed it only. One of the things I'll have to read carefully is the transcript of a Hunt/Conein phone conversation, after they'd partied the night before and in which Hunt introduced his friend "Fred Charles" to Conein. Remember, I did say FE!...I don't suppose you'll want a copy of the decision in spectro and all the Danaher ravings over what was not in evidence and signed by all but Balezon, but I'll send a copy if you'd like. I don't even know how many pages...I got from Ervin today another copy of Vol. 3. I'll be remailing it to you Monday, under the frank. If I sent this to you earlier, you'll know what it is and you can readdress it unopened to Howard, without postage. Or you can merely leave your name on and forward, as c/o Howard Roffman, # 3954 Pine St., Phila., Pa. 19104....There are ~~Harper~~ Harper's and Today's Health articles of which I've been promised xeroxes, the latter an interview with Marina. HW 10/26/73

X I keep my good Pelouze postage scale set about 15% above zero to be certain that the envelopes I mail are not overweight. The one I mailed you this a.n., which should bear a p.m. 10/25 postmark because it is p.m. when the carrier gets into the P.O., was exactly 1 oz and not over it. If it reaches you with postage due, please let me know and I'll see what I can do about getting a proper setting on it. Perhaps the p.o. has standards for its scales. The 15% really means about that much of the first ounce. HW 10/25/73
