

Je's 3-col Hunts memo w. attached note 9/8/73:

No Myndon Sheppard listing Alexandria phone book, none for any Sheppard DC yellow pages.

No Sheppard on official list Creep, Finance Creep, list employes. Only Shepherd Katherine, from office Cong. Foley.

Don't remember exact date Hunt turned self in. Planned it for 7/4 weekend according to the one Bennett deposition I have. (Nader won't let his, which is public, out.) If that gives exact date, I don't recall and it may be in the memo I sent on reading deposition.

Do not recall seeing any newsphoto D. Hunt. Strange. Must be many pix her home.

Believe approx 7/4/72 Hunt did turn up and turn in.

D. Hunt did return from Spain earlier than news stories indicated, again Bennett.

Je's 8/22/73 Nixon San C press conf., tapes.

Confusion deliberate if you read Nixon carefully. This is because, if my recollection is correct, the other tape was one of Dean without Haldeman. The 9/15 one, as I recall, did include periods when Haldeman was not present, despite Nixon's words. What I on looking, listening and then reading regard as the significant and unintended word in all of this is the "we" in "to be sure that we were absolutely correct in our response." GL seems to have made no response. ~~Constat~~ does not suggest he meant "I" by "we" does suggest meaning that he and Haldeman knew what they might have to live with. What he says, if inadvertently, is that he had to be sure Haldeman knew so they could jibe on everything.

Kalmbach "firing": Think JDW has put together correctly. Form also never stopped representing GL on tax, estate work, so far as I know. Suspect they need each other, now even more.

Agnew 9/9/73: These two and much more linked. Very sharp change vis-a-vis GL after their mtg, ~~just after~~ Jr's troubles. A point missed in Ag's 9/9 speech is his warning to GOPs that they are to be considered Deoms, that only Dems vs WG and GL's dirtiness. The only "embittered critics of this administration and this party...could not discredit us at the polls..." I am not aware of any criticism of GOP by anyone....If all Walsh can say re Brazilians is that they have a "very excellent internal security organization" we know he is Nixonian and anything he says on this suspect. If this story were truthful, there would remain the question of the remarkable coincidence that one of a string of alleged threats was taken seriously just at the time fake ones vs GL were being exploited. And Brazilian "terrorists" need stimulation to kidnap? Wow- he doesn't even look at TV.

Boggs, 9/9: probably same guy. Be a natural contact as asst director Protective Research. I was right (my note) Butterfield was fold. Gray test. Will be sending carbons excerpts Lil is typing.

San Jose file: Will go over, select what I want and return, probably after I finish reading the chapter I'm on so Lil can type. Thanks. That clip (those clips) and those on the musical-comedy uniforms just gone. Know I clipped and filed...Glad to get Sat Review on Cubans even if there is nothing new. May hold many reminders and I'm forgetting so much! Another lawyer whose name is now common is Rubin. Lesar also noted this....Read other stories later. Glad to get story Inge Feltrinelli. She cooled fast. Right now I'm satisfied I did the honorable thing in refusing to outline because I've already made three shifts sequences and may feel impelled to make more. Without certain still on what is or may be right or best. Especially because of my tendency toward prolixity that I don't regard as that but as needed for understanding and context. And record if no contract, publication.
