Pls watch for Nick Chriss long piece on Foreman. Was to have been Sunday piece week ago today but he was too late. He wrote part of it in my motel room, from my copy Foreman deposition, last Wed. or Thurs. nite. Think Nick is among those whose attitudes, reporting responsible stories political assassinations might now be other than in past. Despite ~~illness~~ illness he got us for the party Waldron organized and it which I was guest. Martin real character, not only good and monstrously large reporter. Great sense humor.
