

Unless he picks up NYTimes at airport early a.m. Lesar will not see it this week, so please be more than usually alert. I suspect Hunt book leaks, which are normally sold, esp. with so large an advance. I'll be leaving for DC late afternoon, to save parking charges while I'm in Tenn. by parking at safe address and to work on other things with Lesar. My last suggestion to him for the right kind of letter to E.B. Williams about using the pot or not worked. Firm lawyer phoned Lesar to arrange date for talking, saying at outside I guess there is no excuse for letting the statute run so let's talk. We will work on that tonight and beginning with early a.m. plane thereafter on Ray case, splitting in Nashville and together in Memphis through Thursday at least. I'm the heavy again and I think the TC40 looks forward to it more than I! WWIV to be bound this week. I've written CBS in confidence after no answer yet from ABC. FOI deal Ford connived so until floor debate now no special Congressional need. And I'll change ribbon when I return! Best, HW 9/29/74
