

JDW (JL)- While ~~cooling~~ off and resting up after some wood-cutting I got farthur into Under-cover. Read about 20%. Think you should get before it is remaindered because he is a ~~whit~~ blabber, name-dropped and cover-blower. Many names, connections, will interest you. I am stop- ping because the mail may be here. But I'm at the point where it seems not at all impossible that Hunt personally and organizationally was involved in troubles that befell me after World War II, when I was one of the victims in an apparent pogrom. His writing makes it clear that there was a coordinated political campaign within CIA (OPC) to purge theose anywhere whodid not share their paranoia. And that doing this was the ultimate patriotism. JL note: when there is time we should have a long talk about this, and should tape it for the kind of oral hstory interest Wrono/Wisconsin have. I will not now be able to take time to reread this but if any- one does I think it would be useful to try to reconstruct what Hunt omits, dates. When what was done has significance. Warner undoubtedly has a fat file on this. It will include how I assumed leadership after organizing the others (cowards) and how we were the first ever to win such a fight. HW 1/18/75
