

28 January 1975

HW:

I expect to take your advice and pick up a copy of Hunt's Undercover within the next few days. Thanks for the tip.

The enclosed partial tape is interesting for what the guy says about Hunt's one book where his hero did everything wrong. The rest is the usual, but this passage indicates that at one point, anyway, he actually flirted with reality.

No, we haven't received the Dean interview from Playboy. If you get it back (the extra copy) and IF you still feel inclined and decide to send it, we'll be glad to return it afterward if you need it. Thanks.
