

JDW : Odds and ends some of which may interest in 3cl mailing out today.

If you have a chance to keep up with this outpouring you may see patterns emerging.

Coinciding ones, no less. All in time this coincidence.

I have no way of knowing how much is or can be more than conjecture but with all that is happening and can happen I believe nothing can be discounted if there is a reasonable basis for having questions until there is a reasonable answer.

In time you may see something in or out there on the McDonald story.

I've enough on Nosenko for a good story. Proposed indirectly to London Sunday Times via daily's DC office. Also after their yesterday's piece a followup "Have Political Assassinations Changed History?" Meaning the modern ones that are more numerous than most reporters remember until prodded.

In the course of this phone conversation I also suggested that the CIA is being scapegoated.

With all that is its due it is set up for more. It is helpful to those like Hoover, who have such designs against it. How Helms could not have anticipated this and Hoovered the Commission I can't understand. Even with the CIA's history of getting away with murder, as the phrase goes.

The coincide of the availability of the proof with my suit and the CIA and FBI investigations it rather remarkable to be no more than a coincidence. HW 7/7/75
