

Bud O'Toole's address
is no orchestration
No time for newest on that
seems out henceforth.

JLW- Lonnie did tpe the O'Toole press conference yesterday morning for me. He will give me the tape, the book and some promotional material when he comes here Thursday. He and some of the other boys asked O'Toole what they regard as hard questions without getting answers or satisfactory answers. He says that O'Toole did go after the FBI, as he declined to do on the TV shows I caught. "his is fine. It limits it. It means that with or without sponsorship or direct connection he is doing a job for the CIA. (Where without them there is no sense, ~~and~~ vowels. This is the machine, no time, and it does not do 1/2 spaces.) So, my O'Toole interest is even greater. Lonnie estimates that the expenditure for yesterday alone passes \$50,000. Maybe. But the effort and cost are great. You should hear and you may see him there. Any impressions as welcome as clips because so much of this is subjective. News-American did use Lonnie's story yesterday. I've not heard a word and I think it is the kind of story that with- out the attention to the overall recently most papers would have used. MAR 12 1975

This whole thing is getting pretty hairy. If there is no orchestration, there is no orchestration that could have all the notes more in tune. Including Gregory. No time for newest on that; Lane promotion now and internal disunity. (Schoenmann seems out henceforth.)

Another example: Bud has recommended Jim for investigating job with one of Congressional spook investigations. This will take Jim from all other work, including Ray case which would then be certain to lose, and in the end Jim won't pass security check. Meanwhile, his wife longs for regular income. HW 3/11/75
