

25 September 1975

Dear Harold:

Thanks for your offer to send the extra copy of Skeptic. I saw this issue on the stands, but did not buy it, having decided in June, 1974, when their first special issue reached here (it was on impeachment), that it had too much obvious anonymity and too many probable angels. However, if you have an extra copy, we'd be glad to have this latest issue.

Doesn't sound like Weberman's book is likely to be worth sending, so why don't you save it for Howard, in case he wants it. Thanks for thinking of us.

Haven't seen the New Republic/Szylc thing yet, but will pick one up at the first opportunity, maybe later today if it's here yet. Sounds like standard Szylc as we have come to know and love him.

Some time ago you sent along a photocopy of Colby's 8 July 75 report to the President on CIA domestic involvement. The memo that came with it or around that time now seems unclear, and I can't make out quite whether you want it returned or not. It seems probable that you do, but I can't be sure. Perfectly glad to. Please say. We don't need it, but if you don't we'll be glad to have it.

Best,
