JDW:There is so much in today's Wx Post, especially on China, I have statted a separate envelope I'll send 3 cl. In one envelope it would invited damage. I have copied the Korrry interview for myself. It backs on the lead Outlook story. While I've trimmed to reduce the number of folds I've let the masthead on to show you the play You might want to consider this in connection with the volumes of China articles in a single issue. Despite the bulk of the Sunday edition it generally has less news space than daily/s. The Nixon letter of resignation is, I belmeve, authentic. Bud had an exceptionally clear xerox of which I have a xerox of which thas is a copy. Be careful of backups when the ~~envelope~~ reaches you. Korrry is one, a news story is another. HW 12/19/76
