

Some of the Church volumes are not available from the committee, which may mean a faster drain on GPO stores. I have extras of these hearings: 1,4,6 and reports: foreign assassinations, Book III (cointelpro) and IV, History CIA.

If you'd like I'll send. They cost me nothing. The committee waited until this late to do what I'd asked and been promised at the beginning, until after their supplies were exhausted. In fact it waited until after I wrote part, the last to promise, to stick them.
