

Thanks for the clips with the extra copies of the review. 'Tone was a dupe. Of particular value is the Shaneyfelt one. I'd heard this on early a.m. radio but saw in no paper. His is another scalp at the best stretched by the added weight. I'll be surprised is my persistence and suits hasn't forced ~~them~~ all the key agents into early retirement. This is the fourth of which I've heard...His WC expertise was photography, not questioned documents....In private letter to Lesar received today, caused by the letter Ray wrote him, 6th circuit, McRae actually indicated that despite its present condition and situation that case might yet be turned around! We evolved a polite no-quarter response by phone. That is, is phone, letter to him...When I have the Zip I'm filing charges against Wiseman with Levi's Office of Professional Responsibility. They'll cover but I'll get it on record and if things do not go their way in court and they want a goat he'll be on file. Thanks, best HW 6/12/76
