

You'll waste your money if you buy the Playboy that is about due now and is available in some palces. Also those that follow. Terrible stuff, as the enclosed only partly indicates. What gall! They engaged me as a consultant and try to stretch that into a licence to steal. After I wrote the letter I heard from Lesar, refugee from Vegas, which closed down from a hotel-employe's strike just as he left for a day in L.A. after a radiologists convention he went to with his wife. He has to be in court the days we were to work on the FOIA/King affidavit so I'll be home to battle with Playboy earlier than expected.... Cong Downing finally realized he was getting nowhere with the Lanes and Buds so his man phoned me today what should he do. You'll guess what he went for bid- REAL big: precisely what I said last summer is all that could work. Now that it is too late, now that they've learned what was obvious, now that the chances are about shot. These are the kingdoms! Best, HW 3/12/76
