

Dear Jim, If I never thought Agnew is very bright, I also did not believe him as stupid as his farewell marks him. That at this late date he still says, and presumeably believes, Nixon had nothing to do with it! More, that he continues to blame the unnamed highly-placed! He has been conned. I think this aspect bears watching because the time will come when Nixon will need more sacrificaaal victims. Henry Petersen is a likely one, I think. I could build a case against him right now, with what I know now only.

When Lesar and I spoke I made arrangements for him to get and send you the CQ WG paper. Unless you hear otherwise from him, please just add the postage to the \$6.00 and send it to him. He is to be here later today- had to go to the doctor with a slight eye infection yesterday - and if there is any change I'll let you know. HW 10/16/73
