

Before daylight, while I was shaving, I heard most of several short items on WG on a Westinghouse Broadcasting station, of from their own news service. One was of an interview with Cushman as he left the grand jury room in LA. It has him saying that he was "put upon" by Hunt.~~as~~  
I found that an interesting and odd way of explaining how he did wrong for the White House, GL. This was not on the 6 a m. CBS net news, has not been on the Wash all-news station since, and may not be in the WxPost. If when you see it they do not carry this item and you do see it elsewhere I'd appreciate a copy. Another also said that Nixon's scheme for domestic espionage was, too, put into effect. Uncreasingly the Post is omitting what does not originate with it as more and more does not with the developing story. HW 5/30/73
