"Conservatives Speak Out on President Nixon"

A National Conservative Opinion Poll

Conducted by

Campus Conservative Packs

7777 Leesburg Pike, Falls Church, Virginia 22043

Dear Conservative:

The chances of Richard Nixon being impeached or forced to resign are very, very real.

Right now, Congress is considering 11 bills to impeach the President.

Washington is swamped with rumors that Nixon will resign now that the new Vice President has been confirmed.

As you can imagine, all this talk of Presidential impeachment and resignation is taking its toll among our young people.

Many young people -- college students especially -- are falling victim to the liberal lie that America is politically corrupt.

With each day that passes, countless young people are turning against America because they are discouraged and outraged by our country's political crisis.

But what can we do to fight this problem? We can do two things.

First of all, we must help end America's political crisis by making sure that the President and the Congress know our opinions.

In a very short time -- perhaps within a week or so -- President Nixon may make a final decision on whether he should resign or stay in office. Congress may decide very soon on whether the President should be impeached.

But before either one of these decisions is made on how to end America's political crisis, we conservatives must make our voices heard. It's time for conservatives to speak up during this unparalleled constitutional crisis.

So far, not a single one of the national opinion polls have bothered to find out how conservatives feel about the President's possible impeachment or resignation.

That's why I'm asking you to mark the enclosed ballot. All you have to do is mark one of 3 choices:

1. THE PRESIDENT SHOULD BE IMPEACHED
2. THE PRESIDENT SHOULD RESIGN
3. THE PRESIDENT SHOULD REMAIN IN OFFICE

There are no longer any other options. One of the 3 is going to happen

soon. The constitutional crisis is that grave.

But before the President and the Congress decide which course to take, they should have your opinion.

We will count your ballot along with the ballots of everyone else who votes in this emergency poll. When we have the final results, we will send them to President Nixon, every member of the U.S. Senate, and every member of the U.S. House of Representatives. (And we won't use your name when we report the results.)

When the results of this emergency balloting are sent to the President, the House and the Senate, our elected officials will know the conservative solution to this political crisis.

So please mark your ballot today and return it to me in the enclosed reply envelope. We are going to start counting the ballots in just a few days. Time is very short.

The second and final thing we must do is stop the campus liberals who are using America's crisis to recruit politically uncommitted students.

We can stop this leftward trend on campus. We can help turn students into knowledgeable conservatives by sending them the kind of books they don't often see on their campuses -- books which present the conservative philosophy.

The Campus Conservative Pack program, a project of Prospect House, Inc. has been sending conservative books to students for the past 2 years. So far, the Campus Conservative Pack program has sent over 42,000 Packs, containing 212,210 patriotic books, to students across America.

These 212,210 conservative books include 85 different titles and subjects. Campus Conservative Packs have been sent to 2,681 colleges in all 50 states.

Here are some of the books which have been included in Campus Conservative Packs:

- * "J. Edgar Hoover Speaks Concerning Communism"
- * "I Led Three Lives" by Herbert A. Philbrick
- * "The Three Faces of Revolution" by Dr. Fred Schwarz
- * "The Mainspring of Human Progress" by Henry Weaver
- * "Is the Cold War Over?" by Professor Anthony Bouscaren

There are 10,200 campus leaders who have never received a Campus Conservative Pack. These student leaders can help counter America's political crisis among their fellow students -- if we can reach them with Campus Conservative Packs.

We want to be able to send at least 200 Packs to colleges in each

state -- to the key student leaders on each campus such as student body presidents, college newspaper editors, fraternity and sorority presidents and presidents of campus political clubs.

We must raise at least \$4,000 in each state to buy and ship Packs to the key colleges in each state. Quite frankly, we may not be able to meet this goal without your help. Do you think you could help us?

With all the talk of Presidential impeachment and resignation being used to recruit students to liberalism, it is crucial that we step up distribution of Campus Conservative Packs to student leaders. We must not let America's political crisis be used to turn students against our country and against conservatism.

Please -- help stop America's political crisis by marking the enclosed ballot. And help win our college students to conservatism through the Campus Conservative Pack program.

When you return your ballot, will you also enclose your check for \$100, \$50, \$25 or even \$10 to help distribute Campus Conservative Packs? Because we buy books in quantity, for each \$1.00 you send, you will be buying books worth \$1.10 to \$1.25 at retail cost. And Prospect House, Inc. will send them directly to the students for you.

I hope and pray I will receive your ballot and your support for \$100, \$50, \$25 or even \$10 so that we conservatives can continue to defend our great heritage.

Sincerely,

Jeffrey Coman
