

2/12/73 Pm - Ark has the chance to "sneak" Marshall
on Gamma - but has Marshall's visit, Shapiro, on -
Attaly - close to knocking - after 2:30. At the West, Ark
it is a shame, not Ark's own fault. The
more is Marshall's perjury. One of the touchstones is
Ark's reference to a telephone FBI interview that
Marshall subpoenaed. S. D. P. would call for Ark to
have handled Marshall the report. I would have
asked him to read out of it as a meeting part
to her, presumably, Ark subpoenaed the map
Marshall asked Thompson, Thompson began with
a light remark & changed the subject (in it -
will not say otherwise because Thompson had un-
knowingly prepared in secret a line of questioning
of his own.
