Harold...

An update on the materials you requested...one of our newsgals spoke with U-S Attorney Eric Noble about the matter and he too was at a loss to explain the bad condition of the transcripts...he said he'll try to get us usable (readable) copies as soon as he gets back from vacation in about one week...So, 'till then I'll hold onto the check you sent us just in case we can work it all out...

Speaking of vacation, we all just got back from a week away at Lake Mead near Las Vegas. Had quite a nice relaxing time...

Hope this note finds you and yours well...
