

JL-Hunt grand jury testimony update

9/16/74

Art Kevin had an associate speak to U.S. Atty Eric Noble, who was at a loss to explain the bad condition. When he returns from vacation he will seek a legible copy. Until then Art is holding my check and not buying the poor copy the judge told him would not be legible.

I don't know when Noble went on vacation. Art's 9/9 said he was due back in about a week then.

His decision is correct and I'm glad. I'd rather be able to read what is costing \$21.00!

I am hoping to find in it what was not relevant in Ellsberg or what was not understood.
