New Developments

Let's call this "Operation S.A. All The Way."
We're spoken to some of our key contacts in labor and
broadly hinted (without any definite promise, although I believe that
we will have to deliver eventually) that the administration will back
protectionism, repudiate the substance of the Kennedy Rounds and
give serious consideration to backing legislation on a number of
... consider crucial. You will be glad to hear that Mitchell's
plan of selective funding for certain types of public works construction
by geographical area and political advantage has been noted and is
beginning to pay dividends.

What we have proposed and they have substantially
accepted is as follows:

In late April or early May a series of "spontaneous"
demonstrations by labor groups publicizing their support of this
administration's anti-China policies and their discontinuance of
any silent indulgence of the excesses of peace groups will take place
in the target cities of New York, Pittsburgh, Chicago, St. Louis,
and Seattle.

In New York, Vic Borulla is coordinating. He assures
us that one auxiliary result of the spontaneous confrontations of
Brennan's people with the "loathings" will be the embarrassment of
the Lindsay administration if development his boss will view with
pleasure. Please note that in each aforespecified instance a peace-
oriented Democratic official administration will be embarrassed
by the demonstrations. Details on this aspect to follow on.

Borulla is working closely with the New York field
office, reporting to our specialist, O'Neill.

On the question of funds, no commitment has been made.
Waterman has assured us that we can tap into Rufus Taylor's un-
audited "internal security" fund for this operation for whatever we feel
