

Fiorini, overseer of Havana gambling under Castro

Whether or not this is true, it is in the very earliest reporting about two days after the break-in. My point is that Anderson and Pearson wrote a piece for Parade on this, a very funny piece is referred to in O in NO. So, Anderson did know it and did not elect to recall and repeat it in all he has written about the Cubans and Fiorini after the break-in. Wonder why.
