

Ray- hot-car artist? HW 10/9/74

Martin Waldron, who described himself as half drunk and it to call me Friday, told me tonight that when he was in Miami some months ago Martin Dardis gave him a hot tip, that one of the guys they had running a racket of stolen cars into Mexico said that JERay was part of their ring. Martin (Waldron) could not remember the name until I mentioned Sturgis. Twas! Martin said the dates were wrong, as they'd have had to be. Question: what is Sturgis-Fiorini doing passing this kind of stuff around? I mentioned the name Buchanan and that appears to have meant nothing to Martin.

He will be in Memphis and says he'll be at the Downtowner. Asked me to phone. I said I'd like to but expected to be too busy.

He had gotten the story down there that the judge had actually died with the Ray 3/26 letter under his chest. I asked him and he repeated it. With emphasis.
