

Harold Weisberg  
Rt. 8, Frederick, Md. 21701  
12/18/73

Mr. Don Jordan  
Office of Education, HEW  
Washington, D.C.

Dear Mr. Jordan,

I had expected to be in Washington day after tomorrow and had planned to get in touch with you then. However, 500 feet of deep snowdrifts between me and the highway make that impossible so I write instead.

You were to have spoken to others about Mullen contracts but those you had in mind were not in the office.

As you said he would, Harvey Liebgott called. And as you indicated, he was quite helpful. He did have detailed knowledge.

One source of information on previous contracts he remembered is the original Mullen proposal. It referred to earlier contracts.

Two others Mr. Liebgott suggested are Fred Hundamer, contracts officer, and Julie Dickinson, who apparently worked on this one.

Perhaps when the problems from the weather are passed you may find time to check with these people and those you had in mind?

I know you have had at least one Congressional inquiry. In the event you have others, one thing I learned from Mr. Liebgott may interest you. Use of the Julie Eisenhower film was delayed until after the election on Bennett's recommendation. This was after it had been approved.

I hope you have a good holiday season.

Sincerely,

Harold Weisberg

My thanks also for your helpfulness.
