

Howard, when we were looking at Bean reading his prepared statement I called
two things to your attention: he was skipping; and he described as relating
Mrs. Hunt some of the private papers from Howard's safe. Today I got to going
over the verbatim excerpts. As I'd suspect, all these references have been
edited out. Dots appear to show it. Therefore, as this is in the Times ver-
sion, I'd appreciate it if you'd send it as soon as you can, if necessary,
please, getting from the library. If you do this, restrict to the Hunt parts
only. I am finding significant data totally ignored by the media. Thanks.
Seems like you got home to a flood. HW 7/1/73

Js, FYI: Post version, p. 9 bottom col. 4, where dots appear, last two full
rafesz grafs.
