

Sex with a non-American is un-American to Hunt as Nixon's superspook.

He testified to the Los Angeles grand jury (Post 10/1/73) that Ellsberg "consorted with females of foreign birth and extraction - which was a danger signal to anyone in the counterintelligence field."

Not so to Hunt the spook hero of Hunt's spy novels. In them it is perfectly proper as super-agent/super-lover for the Hunt concept of Hunt to bed with any an all "females" of any "extraction". All swooned before him and his superior understanding and intelligence, through his latest novel in which the ~~thinly-disguised~~ daughter of a thinly-disguised Willy Brandt, to the Brilliance of Hunt's penetrating mind a Soviet agent, pants to drop her pants.
