dear Bud:

Just a note before we leave for two weeks.

I had a Christmas card today that might help unravel some mysteries. It was from Robert R. Mullen, whose PR company hired Hunt. Mullen was bought out or shoved out of the company when another guy came in with the Howard Hughes account, and, I would assume, might know something about Hunt. Bob Mullen was a CIA front or agent and traveled extensively around the world, and was a good friend of Anna Rosenberg who helped General Beadle Smith waiset up European operations of the CIA with old Socialist and labor undergrounds.

Bob is now, of all places, at Key <sup>Biscayne</sup> ~~Biscayne~~, 550 Ocean Drive, Key Biscayne, Fla. 33149. Maybe the gang sold him a Key Biscayne place cheap so they could watch him. Anyway, if you have any friends in Florida, they might like to talk to Bob.

Sincerely,

PS - You saw the Rolling Stone piece for Jan. 2 ?
