Dear Friend:

I am writing this as an appeal in a cause I believe to be of vital importance. Vietnam Veterans Against the War have been doing everything within their power to give the American people the truth about the insanity we have been involved in, in Southeast Asia. Because of this they are now facing ridiculous charges.

In the Kent State murders Allison\*, Sandy, Bill and Jeff were guilty of standing in front of M1 bullets. They are dead, these young men are living and deserve better than "trumped up" charges for political action. Have we come to such a state in this country that dissent is a crime and that murder and illegal war is considered legal.

These men need your help. They need it now. This takes money. If we do not help them, they will be silenced and imprisoned. There are far too few voices left. Please support them with your contribution.
