

**CHILE REBELS OUST  
NEPHEW OF ALLENDE**

SANTIAGO, Chile, Dec. 1 (AP)—The underground Revolutionary Left Movement has condemned to death its two top leaders—one of them a nephew of the late President Salvador Allende Gossens—and ordered "its militants and revolutionaries of the entire world, to execute the sentences however, whenever and where they can." In a declaration sent from hiding to local newspapers and foreign news agencies, the organization's central committee said that Andres Pascal Allende, 32 years old, the leader

of the organization, and his principal aide, Nelson Gutierrez, 31, violated standing orders when they sought asylum in two Santiago diplomatic missions with their women companions Nov. 7.

The declaration said both men were expelled from the organization "for life" and were charged with "treason against the party, the working class and the people and also desertion and cowardice."

Their companions, Mary Ann Beausire, 24, a Chilean and British national, and Maria Elena Bachman, were also ordered expelled from the organization, which says it has as many as 5,000 members.
