

JFK Perjury Case Plea of Innocent

NEW ORLEANS — (UPI) — Lawyer Dean A. Andrews Jr. pleaded innocent today to five perjury counts relative to District Attorney Jim Garrison's Kennedy assassination investigation.

Andrews' lawyer, Sam (Monk) Zelden, said he would attempt to have the perjury indictments returned against Andrews thrown out of court. He said if the indictments were not dismissed, he might try to get the case transferred to federal court.

Zelden said the indictments did not say where perjury exists in Andrews' testimony before the Orleans parish grand jury.

A grand jury indicted Andrews last Wednesday, charging he lied under oath in testimony he gave the grand jury investigating the assassination.
