

Clay Shaw Faces New Garrison Charge--Perjury

<p>NEW ORLEANS — (UPI) — District Attorney Jim Garrison, thwarted by a jury in his attempt to prove Clay Shaw conspired to assassinate John F. Kennedy, has</p>	<p>filed perjury charges against the New Orleans businessman. Shaw was acquitted Saturday of conspiring with Lee Harvey Oswald and David</p>	<p>Ferrie to assassinate Kennedy. The jury vote was unanimous. Garrison's latest charges yesterday allege Shaw lied on the witness stand when he</p>	<p>said he never met Oswald or Ferrie. Ten persons, including star prosecution witness Perry Raymond Russo, had given testimony during the trial</p>

linking Shaw, Ferrie and Oswald.

After signing a \$1000 recognizance bond on the perjury charges, Shaw said he will stand by the statements he

made in court.

"I'm shocked of course. I think it's outrageous," said the white-haired, 55 year old Shaw, former director of the International Trade Mart in

New Orleans.

F. Irvin Dymond, Shaw's chief counsel, said he will not ask for outright dismissal of the perjury charges, but will ask for a preliminary hear-

ing, which "amounts to the same thing."
