

Pat Nixon Aides Tell of Messages Of Support

Washington

Pat Nixon has received thousands of letters of support for President Nixon in recent weeks, her aides said yesterday.

Unable to answer each letter personally, Mrs. Nixon has replied with an autographed card, embossed with the presidential seal, which reads:

"All of our family deeply appreciated your most thoughtful message of encouragement. Although we are unable to respond personally to the many expressions of support and confidence, we want you to know how much your loyal friendship means to us."
