Jaworski Describes

### Watergate as Calamity

SAN ANTONIO, Tex., July 4 (UPI)—Calling Watergate a "calamitous burden" for the nation, Leon Jaworski said today that enough had already been admitted in the scandal to make those in the legal profession alert to attack by high officials.

Lawyers and the courts should take the lead to ensure that another such episode does not occur, the Watergate special prosecutor said in a speech to the Junior Bar of Texas.
