

# EARL WARREN 1891-1974

*Earl Warren's death is a loss, not only to our nation, but to all mankind.*

*His impact upon this nation as Chief Justice of the United States is well known. His role as a world statesman has been less recognized.*

*Over the past four years, as Chairman of the United Nations Association of the United States, he provided creative and inspiring leadership, and was a forceful spokesman for world peace under the rule of law.*

*The officers, directors, members, associated organizations and staff of UNA-USA honor the memory of Earl Warren. In tribute to him, we rededicate ourselves to the ideals of the United Nations for which he stood and in which he so deeply believed.*
