

Ailing Nixon Is Reported 'Doing Fine'

Long Beach

Richard M. Nixon is "doing fine and making good progress," a spokesman for his physician said yesterday.

Dr. John C. Lungren's office said the doctor has not seen the former President since he left Memorial Hospital Medical Center here October 4 after 12 days of treatment for phlebitis and a blood clot in his right lung.

Lungren spoke to his patient Tuesday, his office said, and will be seeing him on a weekly basis.
