

JW*I presume you see the obVIOUS in
what I've suggested to Anderson and
from what I've noted on the carbons.
It just isn't possible that every-
thing she has written was destroyed
when they shredded those files. No
lobbyist can avoid having written
many members of the Congress. Un-
less they use no carbons and make
copies by xerox, Anderson's copy of
the memo could not have come from
her. Perhaps it was xeroxed in her
office before mailing, but her copy
should have been a carbon, not a
letterhead original. But with the
shredding and destruction of her
files, with them calling her nuts,
with the doctor indicted as a crook
through his wife, with their other-
wise unprofessional behavior, with
all the sanctimony and portestations
of innocence and persecution, perjury
with or without subornation could
today make this another Teapot Dome.
Any Senator on that Committee walking
into IFF headquarters and asking
for samples of her other messages
and letters would have a bigger stink
if he were refused and samples would
pour in from all over the world. But
the chances of his getting in touch
with me are slight. He had an earlier
hangup on the assassinations, perhaps
of Warren origin, perhaps because he

used so much fed to him, perhaps
blind trust in sources whose personal
involvements he had no way of know-
ing, perhaps a combination. And let's
not kid ourselves, the enormous
campaign has been very successful.
We are all cursed and we are plagued
by some of our friends. But this is
a dream situation if someone has the
gumption to do what should be the
very, very obvious. H
