9/4-Events here worked against Lil listening to the KPFK b'cast by phone, which was when I was going to tape it and Cyril on WTOP-TV for you, so I've not made dubs of either. KPFK with another cassette in 3rd class g. I've not dubbed Cyril and do not intend to keep thanks to the ample selections you have sent from the wire and air unless on relisten- ing it includes something else. How- ever, I will not erase until I hear from you because TV may have used more than or rather other than radio or was printed. H
