

With 11 of the 20 pages of the Post's main news section today full-page add and two others almost full page, you can estimate the high proportion of WG news from this. With the paper delivered now, on days I'll be going into town in the morning I can save a day, sometime as today, two days, in hasty clipping, as with this. Please excuse. I think it better to get the stuff to you faster. HW 4/28/73

L.P. (not liquid propane, common meaning of the initials in the countryside) Gray's incendiarism with the Hunt files is not in the early edition of the Post and the later ones do not get here-ever. I first heard of it midnight from CBS-Chicago. Opening item net news from NYC. Until after 6 a.m. here. only briefest, underplayed wire coverage on all-newsers, with death Lillian Ryan (Ma Clampert?) of Hollywood Hillbillies TV show getting more attention. Later WTOP (Post's) gave good coverage. They say NYTimes, Daily News and Post had story and they gave a few details not on the midnight report. However, today is the first on his new job for Ian and I'll not be able to get story from him, and Lesar is in Nashville, so I don't know if I will. I'll try. We are having a northeaster, with flood warnings. Unless Lil changes her mind when I awaken her we're going into town for groceries and I'll swamp you with this then. It is an incredible, Orwellian affair. No wonder Dean was so cocky. And Peterson still in charge! Cunegonde said it all.
HW 4/27/73-You paper clipped at 6:30 a.m. Service, friends! But I've not read anything yet.
