

Dear both, don't bother to get Tad Szulc's bio from Contemporary Authors. I have it and David St. John. Lesar got them. Pale copies, but I'll try to copy for you in a.m. Tired long day, bad driving both ways and I want to get up as early as possible. I have Caddy's deposition in civil suit. Understand he says little because again the interrogating was incompetent. I regret I was so right in the unsolicited opinion of Dobrovir re his deposing of Bennett. However, if he has to fight back vs Scott and Ford, I just happened to have what he might be able to use and left it on tape in DC..Also saw Jack Landau, "Reporters' Committee, re amicus brief in spectro before Sup. Ct...Open, he'll read stuff and then take up with board.. Szulc: note how vague on career, even less than Who's Who. Gets spookier all the time. St. John: note employment CIA "ends" just in time for alleged LBJ job. Quite a coincidence. ...We never get around to cards, but we also never get away from the real feelings they are supposed to express. With them also our thanks for the many kindnesses. Best, 12/20/73 *fw*
