

Jim, I've been sent a copy of Cyril's thing in February Computers so, if you see it, don't bother making a copy for me. The first sentence tells me it is an uncredited reprint so I've gone no farther. Jerry also sent me the Realist with his magnum opus, which I've just filed. Ed Williams' first Romero knowledge was from Joesten, whether newsletter or private letter he didn't say. Does one of you remember it earlier than L'Aurore? Jerry's current project is an expose of how Nixon manipulated the media to "force" McG into whatever Jerry will say he did that he should not have. HW 2/23/73

Got some No. 10 envelopes 2 for 1¢ today, so as soon as I use up those I've already addressed, there will be fewer creases. HW busy 2/22/73 26 1973 think I won a fight with the county commissioners over the damage they did here. What things waste our times!

If I didn't send you a copy of Wecht's Modern Medicine echt, Larry has sent me an extra I can provide. HW 2/24/73

Taped Kissinger with Barbara Walters from NBC-TV 6 197 last night for you. More of the interview is to be presented on the Today show this a.m., and I'm read with the second side. If it comes in the period when I take Lil to her office, I'll put a 120 in, which will give enough time. The tape won't run out before get back, as it can in 30 mins. If you don't want it there will be no loss. The Walters night part, with tinsel, runs 1/2 hour. Some is interesting. No longer does he lean on and attribute to GL, for example. He admitted the agreement is essentially what it was to begin with. And I think I've observed that he singal with his mouth as well as his eyes. HW 2/26/73

If the Post carried the story from GAO via Proxmire than L. Patrick Gray was in office illegally, I didn't see it. If it was not there, I suggest that it bears on my earlier analysis that Gray was leaking to the Post and thus earning its support. They did have a favorable editorial some time ago. If you can remember the Times story when you get to it I'd appreciate a copy. Thanks HW 2/24/73

Reading 20th Century Fund's Press Freedom Under Pressure reminded me, in thinking that those who write books also need protection against official processes, of what might not be clear to you in my letter to George Lardner. The unidentified witnesses are Douglas Jones and Myra Silver, both of whom told me that LHO did NOT get the handbill they printed and both of whom told me separately, ones after the lapse of more than a year for the second time, that Thornley did, identification from a series of his pictures. It is Jones who was killed by the hurricane. And where I stopped in this book is ~~in~~ at the beginning of the discussion of film. The FBI did cut the WDSU footage of LHO giving out handbills outside the International Trade Mart. Aside from my other, redundant proofs, the then WDSU news director and Jesse Core both told me that Jesse also was edited out. They previewed the residual footage after LHO was first named.
