

KPFA transcript 1/18 Edith Green fullest account I've seen. By now you know I've written her. This is one of the most promising areas, for I believe the Nixonians had figured out a way of tapping the public till to finance this dirtywork via fake government contracts. You may recall my FOI requests on this. Pursuing this is one of things I plan to take up with IPS, which I think now has young lawyer on staff. Trial, other coverage limited by other major news breaks, so KPFA's coverage even more important than its usual good would be. Thanks, HW 1/24/73

Your cute ? on Chron 1/18 "The Chinese Connection" story spells ~~Striso~~ ~~Striso~~ ~~Striso~~ "WHO"? (Now WHO would think of fingering the Peoples Republic of China? rpt?). Because I've been getting the NYTimes, I know that has not yet reached you, that Gold blames ~~me~~ his assistant and that both have backed down. One might ask under what pressure, if more than reporters' questions (I've forgotten details). All the evidence cited is evidence China could not be the source. Too many have understood their Orwell.
