

Initial "peace" coverage by TV nets: We looked at NBC's on GL's speech because "I had been looking at Alistair Cooke's America series, which preceded. GL followed by Ed Newman and panel of Jake Javits, which Jackson, Tower HHH, which was unrepresentative and awful. Scoop break I switched to CBS, ABC, but not had regular programming. At half-hour CBS TV net news had Scoop, Tower and Mc Loskey (who was good). I find ~~myself~~ myself asking can it be only accident that Scoop and Tower were selected and repeated, with the bad hours it gave both, was it accidental that no foreign-relations people were used? It can't be that the media don't understand that GL has interpreted deal as its text can't honestly permit, which should sponsor questions if not doubts, and I suggest the men selected bears on this. Sending unseparated not because of backups but because with stories of this length I think it might make your mounting work out better. Post also had long Service piece, quotes from Tuchman, sending separately. Haven't seen Times, which had not come when I was in town. Had to get Ldl to her office early. They have an "award" gimmick for volume. Her yesterday's was twice the volume of the highest award and then some. Her personal reward was limited to the shakes and fatigue. HW

NYTimes did not come to town today and I mistakenly assumed they'd have no Monday stories. If you can send me copies of WG stories 1/29 and 31, I'd appreciate... It suddenly occurs to me that IF Liddy and McCord can't first-hand name WH people, they may get burned while the plea-coppers are being ~~led~~ *are* *we* *then* *was* *gandy* *JAN 01 1973*
