

I take much encouragement from Ron Kessler's today's story. He may go further on this. If he does not plan to I should hear, assuming he is not given other assignments. He planned to address Cubans next. I suggested that he look into this when he phoned me after his D. Hunt crash/Skolnick stories appeared, told him the essence but not the detail of what I had, of the Dean letter I'd sent Harwood, and offered him all I had. There may be a slight change in Post "policy" toward me. I've had some calls in which they seek my opinions & estimates as much as fact, including several from Barry Sussman, editor in charge WG.
